

4th COGNO Annual Scientific Meeting 6th-7th August 2011

Macquarie University, Sydney, Australia

The 4th COGNO Annual Scientific Meeting will take place from Saturday 6th- Sunday 7th August 2011.

The ASM will be held in conjunction with **Macquarie Neurosurgical Research and Clinical Symposium** (5th and 6th August) at Macquarie University in Sydney. The combined program on Saturday 6th August has been designed with a particular focus on brain tumours, ranging from translational science to clinical management updates and emerging technologies.

Themes of the 2011 COGNO ASM include:

- Management of Glioblastoma in the elderly
- A forum to meet and hear from key Australian translational scientists undertaking glioma research
- Challenges of endpoint selection in neuro-oncology clinical trials.

CONFIRMED INTERNATIONAL SPEAKERS

- **Dr Annika Malmström**, an eminent clinician and researcher in neuro-oncology from University Hospital, Linköping, Sweden;

- **Associate Professor Wai Hoe Ng**, Senior Consultant Neurosurgeon and Director of Surgical Neuro-oncology at the National Neuroscience Institute, Singapore;
- **Dr Christopher Ang**, Consultant Neurosurgeon and Translational Scientist, National Neuroscience Institute, Singapore.

There will also be a range of Australian experts updating us on the status of current and emerging clinical and translational research.

More information, including a preliminary program, is available from the COGNO website:

www.cogno.org.au

We hope to see you in August.
